Surfacing Barrancas Cemetery Road.

Fort Barrancas, Fla., June 2, 1909. Sealed proposals in triplicate for surfacing the Barrancas National Cemetery Road with Alabama limestone, will be received here until 11 a. m. June 17, 1909. Full information furnished upon application to the Contracting Quartermaster, Fort Barrancas, Fla. June 4, 5, 9, 10, 11

644 ARRESTS DURING MAY

POLICE KEPT BUSY DURING THE PAST MONTH—\$2,964 WAS THE AMOUNT OF FINES ASSESSED.

The report of Marshal Sanders for the month of May, which has been filed with the board of public safety, shows that the total number of arrests in the month was 644, of which number 236 were white and 408 colored.

The cases were disposed of in the recorder's court as follows: Discharged, 62; found guilty, 501; sent to criminal court, 32. The total amount of fines assessed was \$2,964, of which amount \$1,629.50 was collected and \$76.50 remitted by the recorder.

The total amount of pound fees assessed was \$26.50. The total number of meals served at the city jail in the month was 3,098, at a cost of \$199.69, making a cost of 61-2 cents per meal.

The following supplies for feeding prisoners were purchased: Groceries, \$45; fresh meat, \$33.10; salt meat, \$56.80; fish, \$6.75; coffee, \$5; bread, \$13.04.

The total amount of fines worked out by prisoners in the department of the board of public works was \$477.50.

The largest number of arrests was made by Policeman J. C. Nichols, he being credited with having made 69 arrests in the month, 48 of the prisoners being white and 21 colored. They were disposed of in the recorder's court as follows: Forty-eight found guilty, three discharged, seven sent to the criminal court and eleven cases not prosed. Fifty-five of the defendants were citizens and fourteen were foreigners.

THE BARRANCAS ROAD SURFACE

Bids Wanted for Hatching It With Three Inches of Limestone.

Those who use the Barrancas road for either business or pleasure, as well as all road contractors, will be interested in the fact that the quartermaster's department at Barrancas is now advertising for bids for the surfacing of this roadway with three inches of Alabama limestone. The bids are to be opened on June 17. It will be remembered that when this road was built, the appropriation became exhausted and the road was never completely surfaced. Additional money is now, however, available, and Capt. A. L. Rhodes, constructing quartermaster, hopes that a suitable bid may be secured so that the much-needed work can be done at once.

The road is one and seven-eighths of a mile long, and the contract is therefore a good one.

"It cured me," or "it saved the life of my child" are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures.

SPRINKLER ON TARRAGONA ST.

DEMONSTRATION LASTING FOR SEVERAL MINUTES WHEN THE SPRINKLING WAGON MADE ITS FIRST APPEARANCE ON THE THOROUGHFARE.

A demonstration something out of the ordinary was that of yesterday afternoon when one of the city sprinkling wagons visited Tarragona street and sprinkled that thoroughfare. At first those having business along that street remained silent, thinking possibly the driver had made an error, but when they saw that he had not, cheering and whistling and calls of "Whose paying for it?" drowned the noise of the puffing and rumbling engines and cars in the vicinity of the Union depot. Numbers of persons almost deserted their places of business, and some even went so far as to jump on the wagon for a ride, all the while cheering and giving vent to their joy.

Experience Proves. Time tells which is best and most reliable. For 70 years Perry Davis' Painkiller has been driving away pain and bringing health—a remedy for sprains, burns, bruises, rheumatism, neuralgia. It cures colds, cramps, bowel complaint. But be sure to take this unequalled remedy promptly. Large bottles 35 cents or larger 60 cents.

WOMAN'S NIGHTMARE

No woman can be happy without children; it is her nature to love them as much so as it is the beautiful and pure. The ordeal through which the expectant mother must pass is so full of dread that the thought fills her with apprehension. There is no necessity for the reproduction of life to be either very painful or dangerous. The use of Mother's Friend prepares the system for the coming event, and it is passed without any danger. This remedy is applied externally, and has carried thousands of women through the crisis with but little suffering.

Book containing information of value to all expectant mothers mailed free. BRADFIELD REGULATOR CO. Atlanta, Ga.

An Italian bark, the name of which has not been learned, entered port late yesterday evening under her own sails, going up to quarantine, where she was detained for inspection by the port physician.

Steamship Peerless in Port. The British steamship Peerless, 2011 tons net, Capt. Cook, twenty days out from Las Palmas, in water ballast, arrived here yesterday consigned to Rix M. Robinson. Capt. Cook is accompanied by his wife.

Cargo of Naval Stores. The river steamer Capt. Fritz arrived here yesterday from Freeport with 252 barrels of rosin, which were unloaded at Jefferson street wharf.

Tarpon Left for Coast Points. The freight and passenger steamer Tarpon, Capt. Barrow, arrived here yesterday morning from Mobile and left last night at 8:30 for St. Andrews and other points.

Tiverton Arrived Yesterday. The British steamship Tiverton, 2453 tons net, Capt. Leisk, seventeen days out from St. Vincent, C. V., in water ballast, arrived here yesterday, consigned to Rix M. Robinson.

Left for Sea. The British steamship Hillside left for sea yesterday.

Schooner Elvira Ball Sighted. The abandoned schooner Elvira Ball is still on the go, and has again been sighted, this time by the British steamship Sarnac, in latitude 37.40, longitude 31.50. The hull is full of water and decks awash with after-house and forecastle head well above water. The derelict is in the track of sailing vessels and has been adrift since February 8. Many wrecking craft have been searching unsuccessfully for her.

Baltimore-Jacksonville Line. The Merchants and Miners Transportation company will inaugurate a service between Baltimore and Jacksonville, Fla., June 16, with its steamship Merrimac. There will be tri-weekly sailings and the steamers will call at Savannah, going and coming, for passengers and freight.

New Freight Steamer. The steel freight steamer which is being built for A. H. Bull & Co. by the Newport News yard is the first freighter to be built in the United States in ten years intended for the foreign trade, and nearly three vessels of her size would be needed to equal one of the big transatlantic liners that German and British shipyards are now turning out for the transatlantic trade.

A Successful Boat Test.

A test of an unsinkable motor lifeboat invented and built by Oliver Roland Ingersoll, Maritime Exchange, New York, made before a commission of army officers of Governor's Island June 1 was eminently satisfactory. It took five minutes to capsize the boat, after which it righted itself immediately, and in 27 seconds bailed itself free of water. The motor was left running, and by an automatic throttle shut itself off before the boat was completely overturned. This capacity is so great that it will sustain when loaded as many more persons as can find room to hang on by the lifelines. Its adoption will be recommended for all army transports.

Speedy Yachts.

On a preliminary trial trip made on May 27 the big new steam yacht, Little Sovereign, owned by C. D. Borden of New York, developed a speed under natural draft of 29 miles per hour, and it is expected that when this boat goes on her official trial trip she will easily be able to reach 32 miles an hour. Another speedy yacht under construction is the Whirlwind for Julius Fleischmann, of New York, which was launched on May 28, and which is guaranteed a speed of 26 miles an hour. This yacht is to be ready for delivery about the middle of June.

America's Cup Defenders. In a recent communication to the New York Herald, William T. Donnelly, an eminent dry-dock designer and naval architect, makes the suggestion that the Reliance and Shamrock III, the last contestants for the America's cup, be preserved intact, as they mark the culmination of design in international yacht racing, and will doubtless never be duplicated. Mr. Donnelly further suggests that the Hudson-Fulton celebration would seem a most fitting time to have these historic yachts placed

side by side in some city park, accessible to the public, for comparison and admiration by the hundreds of thousands to whom their history is so well known. Mr. Donnelly backs his interest in this laudable effort by subscribing a liberal sum as a starter to inaugurate a popular subscription for the purchase of these craft. This idea doubtless originated through the report that Shamrock III was to be broken up. There is no doubt that this scheme could be made a success if prominent yachtsmen could be induced to take the initiative in the line that Mr. Donnelly suggests.
